Tracking	After your order is placed, Terra's Real Time Order Status System presents daily progress reports directly on www.TerraUniversal.com. This service is available ONLY from Terra.
-----------------	--

Terms of Sale:
Terra does not guarantee the suitability of Terra supplied equipment for your specific application, only that it will perform to the specifications documented above, NOT including oral instructions or other requirements not listed. Terra accepted and produced this order subject to Terra's acceptance of customer-approved drawings, receipt of initial payments and export license, credit approval and to the terms and conditions shown on TerraUniversal.com. Terra's terms and conditions supersede any conflicting terms in your PO or RFP/RFQ. Any terms on your PO that conflict with Terra's terms are NOT accepted unless authorized IN WRITING by an authorized Terra employee and documented by returning a signed copy of your PO. Summarized, Terra's terms are: 1. Payment terms are as given above. A Late Charge is invoiced on product and service invoices unpaid 15 days after their due dates. The late charge must be paid to retain open account status. The Late Charge is 10% of the products and services invoiced or the discount granted, if any, on these items, whichever is greater. Invoice due date is based on date shipped. 2. This order has been accepted with the understanding that the "Ship To" addressee and location provided are the final destination of these products for purposes of Department of Commerce regulations and that you will notify Terra if these change. If an export license is required, a processing charge of \$500 must be paid before the application is submitted. Export licenses require undeterminable time for DOC processing. Terra does not accept orders requiring export licenses until the licenses are received. 3. All Estimated Ship Dates, including confirmed ESDs, are estimates, depend on workloads when the order is ready for manufacturing release and are NOT guaranteed. 4. Except when specified "FOB Destination" in Shipping Terms, above, orders accepted by Terra are FOB Ex-Works. FOB Ex-Works means that risk of loss passes to you when the goods are loaded on the truck and you must file claims for freight damage directly with the freight carrier. If you order freight charges "prepaid and add," freight cost plus a handling charge computed under Terra's standard policy is added to each shipment. These costs may be avoided by ordering "freight collect" and FOB Ex-Works. To reduce costs and speed delivery, it may be necessary to ship from different factories and in different shipments. These are not "partial shipments." 5. Orders accepted, released and processed by Terra cannot be cancelled or returned except on terms that compensate Terra for work performed and expenses incurred. Custom items, items not purchased from Terra, and items modified or damaged by improper use, repairs, application of labels or nameplates are not returnable. 6. All returns must be approved by Terra in writing in advance and may be assessed restock and handling charges. No returns will be accepted without an RMA. All items accepted by Terra must be in original condition and in original shipping containers and returned freight prepaid, FOB Terra. Terra may elect to issue return credits against future orders rather than cash refunds. 7. Terra's warranty is as shown on TerraUniversal.com. This order may not be assigned without Terra's written approval. 8. If Terra files any proceeding to enforce the terms of this order or to collect any amount due, you agree to pay all reasonable attorney's fees and costs.

Cleanroom, Softwall ValuLine, Modular Powder Coated Steel

- Size: 6'L x 6'W x 7'H
- Class: 100
- (Height is floor to filter face)
- COMPONENTS INCLUDED:
 - Steel frame – posts and beams of 2.5” (280 mm) square tubing, powder coated
 - Steel ceiling grid – joists and cross members 3” (76 mm) T-bars
 - Steel reinforcing gussets – two on each corner post
 - Pre-mounted GripTrack for curtain panels and strip shield doors
 - Crate, wood
 - All electrical components UL and UL-C listed
- ACCESSORIES INCLUDED:
 - Curtain Panels – 40 mil anti-static PVC, corner notched, precut, hangs from GripTrack
 - Strip Shield Door – up to 4’ 60 mm anti-static PVC, pre-cut, hangs from GripTrack
 - Fan Filter Units (FFUs) – HEPA filtered, 120 VAC, up to 808 CFM, as required to meet rating
 - Fluorescent Light Modules – 120 W, 3409 candlepower, 120-277 VAC, as required to meet rating
 - Power Supply Unit – Switched supply to six-receptacle unit, plus one non-switched user duplex GFI receptacle. 20W 120 VAC, as required to power FFUs and lights
 - Ceiling Panel -- 2' x 4', polypropylene, white, as required to complete ceiling grid
 - Ceiling Panel -- 2' x 2', polypropylene, white, as required to complete ceiling grid
 - Tool Kit – All tools necessary to assemble room
- o ADDITIONAL INFORMATION:
 - Room is sent disassembled with assembly instructions. Two assemblers make the process easier
 - FFUs and lights plug into ceiling-mounted outlets from the Power Supply Unit
 - Power Supply Units plug into standard US wall receptacles. Each PSU requires a separate, free 20 A circuit
 - Power Supply Unit Switch and non-switched GFI outlet mount on corner post
 - Strip door mounts at any corner
 - FFUs add 13” (330 mm) overhead to height. Additional 9” to 11” (230 - 280 mm) clearance is required for air flow and installation. Total clearance required above filter face is 22” to 24” (560 - 610 mm)
 - Heavy-duty casters may be ordered at additional cost (TUI 6704-08)
 - Room is shipped in large wood crate with casters that fits through 36" doorway for internal delivery.
 - Forklift, lift gates and pallet jacks may be required to unload crate
 - Room may be customized at reasonable additional cost and lead-time
 - Since regulations vary considerably in different locations, Terra assumes no responsibility for meeting local building regulations, including fire and seismic codes.
 - Check your local planning department for regulations applying to your installation.

<p>FasTrak Services</p> <ul style="list-style-type: none"> • On a tight schedule? You may choose one of Terra's FasTrak Priority Services to help meet your critical schedule for Terra-manufactured products • FASTRAK ADVANTAGE works within Terra's existing production organization to meet the Estimated Ship Date, even if shop loads or other circumstances change by the time your order hits the shop floor. FasTrak Advantage assigns a FasTrak order expeditor to ensure production priority, streamlines internal purchase and overtime authorization, and logs progress to senior management status reports. FasTrak Advantage guarantees* to meet the agreed-to Estimated Ship Date (ESD). • FASTRAK 24/7 provides a higher level of service: a 24/7 commitment to meet the shipping date YOU specify, regardless of quoted lead times. FasTrak-24/7 assigns and a dedicated production team plus a dedicated senior expeditor working three shifts to meet your delivery specification. FasTrak 24/7 guarantees to meet the agreed-to specified ship date. • Call for pricing on the FasTrak program that meets your production schedule. (FasTrak service fees cover costs of additional services only, without additional profit.) <p>*Terra's FasTrak services limited guarantee are ship on the ESD or date specified or to refund 200% of FasTrak charges. This guarantee covers no direct, special, consequential or other damages and is strictly limited to 200% of the amount paid for FasTrak service.</p>
